

25 February 1974

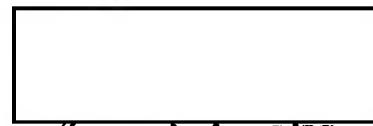

NOTE

Paul:

General Graham and George Carver both question whether it is appropriate for the A/DDs to review the NIO and IC Staffs in context with CIA ceiling. General Graham plans to mention this to the Director.

Both these Staffs relate essentially to the Director's perceived needs and assigned responsibilities for the Community. No one among the A/DDs has any kind of complete insight into what this is all about. The words in the attached could be a lot firmer, but we've tried to make it as helpful as possible.

Consider this paper a submission from yours truly. While General Graham has read it, he is not necessarily committed.
